Paper Company Announces It Will Adopt New Policy.

New York, July 10.--(AP)—The Associated Press learned on high authority today that negotiations are under way for the gradual disposal of all of the newspaper investments of the International Paper Company. The company, however, will retain its contracts for newsprint.

While no official statement was

While no official statement was forthcoming from the company its attitude was said to be that since its objectives of stabilizing prices and building up future volume through long term contracts had been attained, the need for newspaper investments no longer exists.

When made, these investments were the backbone of an aggressive newsprint sales campaign, the International Paper Company lending financial assistance to publishers in consideration of long term agreements to purchase newsprint from the company. This program, the company contended,

This program, the company contended, minimized the danger of violent price

fluctuations.

The paper company is now running its low-cost Canadian mills at full capacity, it was said, and by curtailing production in its higher cost American mills is contributing to stabilization of conditions throughout the industry by substantial purchase of bilization of conditions throughout the industry by substantial purchase of newsprint from the Quebec and Ontario mills of other companies. This, it was said, will enable the company to run at a higher rate than would otherwise have been possible.

On the basis of testimony given before the federal trade commission by A. R. Graustein, president of the International Paper Company, the company in addition to strengthening its

Perils of Air Mail Trails Related in Special Series

the Constitution presents the twenty-sixth of a series of articles which show the dangers attending the duties of Rough Riders of the Air Mail, written exclusively by air mail pilots for The Constitution and the North American Newspaper Alliance. This interesting feature will be carried daily.

(Copyright, 1929, by the North American Newspaper Alliance.) No, I don't consider flying especially dangerous. I've been at it so long I don't think much about that. I just fly the best I can, and when it gets too tough I set the plane down and await better conditions.

I got a kick out of flying through a thunderstorm near Ridgewood, N. J., in 1923. The lightning flashed and the thunder roared and between them they stirred up the air like nobody's

business.

I got caught in a huge gowndraught.

It pitched me down nose first. No matter what I did the plane seemed determined to plunge into the earth. I dropped 1,000 feet in less than a minute. When I tell you I had only 1,200 feet to begin with you can see what a fix I was in.

When I was within 150 feet of the ground the downdraught seemed to change its mind and up I bounced with it. That was one of my narrowest squeaks.

At one time I made regular trips in a flying boat between Bimini in the Bahamas and Key West, Fla. It wasn't flying the mail then. Bucking a storm, I ran out of as over the Atlantic ocean and was forced down. It was fortunate I had a sturdy old flying boat instead of a land plane. Otherwise I might not have lived to graduate into mail flying.

Occasionally on night flights between New York and Boston I run into bad weather. So as not to alarm prospective air pasengers I would like to point out that in flying the mail in single seater, non-passenger carrying planes at night we sometimes take I got caught in a huge nowndraught.

BORAH SWAMPED WITH REQUESTS FOR "PASSPORTS"

Washington, July 10.—(P)—Requests for letters from Senator Borah by prospective travelers in Russia are almost swamping the office of the Idahoan since publication of a story telling of the value of these letters in the soviet land.

One person informed Mr. Borah that he intended to depart soon for Russia and sugested that the senator "rush passports." Borah has long been an advocate of recognition of the soviet government by this country.

tne erection of branches and an increase in the board of governors from seven to eleven is opposed at present by Secretary Good.

The secretary made known his disapproval of bills which yould authorize the extensions in letters to Acting Chairman James, of the house military committee.

The bills disapproved are the Collins' measure for a branch in Mississippi; the Edwards' bill for a branch in Florida, and the Steele measure to provide a branch in one of the southeastern states.

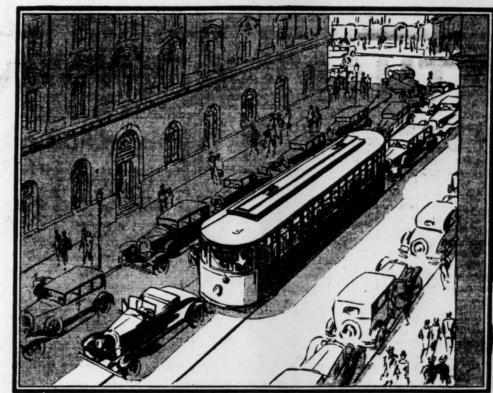

The last annual inspection of the various branches shows, Secretary Good wrote, that the membership is increasing and recommendation was made for certain additional construction at the branches now in operation.

I his Actually Happened

THIS reproduces an actual happening a few days ago. A motorist wishing to transact some business in the postoffice left his car standing on the street car tracks. Thirty people in the street car and twenty-five people in other automobiles were delayed five minutes or more.

Said a prominent Atlanta citizen:

"I sometimes wonder if our boasted Southern courtesy really means anything. So many traffic delays would be eliminated if people would show even ordinary consideration for others."

Double-parking violates both the laws of courtesy and the laws of the city, yet incidents like the above happen far too

often for a city of Atlanta's size. Thirty years ago it wouldn't have mattered, but now it does matter seriously.

When street cars are delayed, the 80 Percent are delayed, and all business is delayed. Double-parking, parking unnecessarily on busy downtown streets, driving unnecessarily on the car tracks, "cutting in" in front of a street car, delays all of the people who ride the street cars, slows down traffic, slows up the city.

Practice the Golden Rule in Traffic! Show others the consideration you would like to have. A spirit of mutual consideration for others throughout the city would work wonders in improving traffic con-

Dirt Gtavel Concrete Saves Gasoline You will find in the simple chart, shown above, a lesson in economy directly connected with every motorist's pocketbook The chart is based on tractive resistance tests conducted by Iowa State College, Ames. It shows that a gallon of gasoline

carries you more than twice as far on a concrete road as on a dirt road, and onehalf farther than on gravel. The all-around economy of concrete

roads goes a long way toward paying for them. In addition to the fuel saving, they are rigid, safe to drive on, and have the lowest upkeep cost.

FINE GROWTH ENJOYED BY INTERSTATE LINES

Expansion Planned by Operators of Atlanta-Chicago Air Mail Route.

Interstate Airlines, Inc., holders of the air mail contract between Atlanta and Chicago, has enjoyed a remarkable growth since its formation approximately eight months ago and is formulating elaborate plans for further expansion and developments which include the establishment of flying schools, inauguration of passenger service, and of night air mail service er its route, according to a state-ent here Wednesday by J. B. Price, Atlanta, division traffic manager

of the company.

He pointed out that the recent purchase of Interstate by the Aviation Corporation, a holding company which now owns ten domestic air lines in the United States, had given added impacts that the control of the company with the petus to its steady progress, with the result that the prospects for the fu-ture were exceedingly bright. Booming With One Hundred New Pupils Enrolled At The Southern Business College

Many Others Will Begin | 40 Years with Southern Business Courses the Week of July 15.

New faces, one hundred of them, and more on the way, are seen among the three hundred and fifty to four hundred pupils now in attendance at the Southern Shorthand and Business University, the business school which, because of the thoroughness of preparation of its graduates, is taking the Southeastern section of the country by storm, so to speak.

These new pupils have been en-rolled since the first of June, show-ing a marked increase in the enrollment for the corresponding period last

these are the outstanding factors which have made the Southern Business College the leading business training school of the South.

Imagine one single important business firm with twenty-two office employees, every one of them from the Southern Business College, and you can get some idea of the great popularity of this school among the business men of Atlanta.

New Haven, Conn., July 10.—
(United News.)—One of Sylvester Z.
Poli's dreams was realized last October when he sold his chain of theaters—built up from a tawdry little wax figure exhibition—for \$30,000, 000 to William Fox.

Another came true today when his youngest daughter, "Polly," became the Marquise Gerini, Miss Lilian Madelyn Poli was married to the Marquis Lippo Gerini, scion of the ancient Italian Gerini, there was a rush of bridegroom scowled slightly and at the state millage for the coming year and a prospective for the coming year and year troit.

The exit from the church was a "re-enactment of the mob scene that attended the entrance. As the bride came out of the church on the arm of Marquis Gerini, there was a rush of photographers. The handsome, suave bridegroom scowled slightly and attempted to brush past to the waiting limousine. The bride spoke quickly in Italian and put her hand on his arm.

Jim Cummins, who rode and fought with Jesse James, Cole Younger, William Clark Quantrill and still lesser lights of fact and fiction, has battled his last opponent and spun his last yarn.

He finally returned to Clay county and surrendered to the sheriff. As no witness could be found to be used against him, he was not held for trial. His declining years largely were spent in story telling. When he entered the Confederate home, his loquacious ways caused trouble.

-In Atlanta it's Jacobs Chocolate Ice Cream Soda

There's a definite reason for the goodness of Jacobs Chocolate Ice Cream Sodas. The very best of everything goes into them!-there's that rich, delicious Jacobs chocolate syrup, two large scoops of Velvet Kind Ice Cream, plenty of whipped cream, and they're carbonated to just the right degree for perfection!

A Jacobs Sandwich (2 or 3 decker-made to your very own special order!) and a Jacobs Chocolate Drink answer your need for nourishment at noontime—served at spotlessly clean fountains by expert dispensers—and now while it's July and hot weather-cool! soothingly cool! That's why you'll find your friends "rendezvousing" at Jacobs Soda Fountains!

THOMASVILLE FIELD

Thomasville, Ga., July 10.—(Special.)—Under 'he direction of Bill Langley, secretary of the Chamber of Commerce: Sid Steyerman, chairman of a special airport committee, and the Rev. Robb White, chairman of a special committee on air tours, the landing field in Thomasville is being put in shape in anticipation of the fleet of planes that will be here two weeks from today on the "All-Georgia air tour." The runways on the field have been lengthened and a large circle 100 feet in diameter, surrounded by a white band six feet in width, has been laid down. There is a big arrow in the center of the circle, pointing in the direction of the runways, and a conspicious aircone has been erected with a large arrow showing the direction of the wind.

Food of Average Citizen Is Poor in Vitamins, Says Dr. Langstroth.

Portland, Ore., July 10 .- (A)-Although most Americans have advanced beyond the fried potatoes and pie breakfast, there still is a tendency toward a diet conducive to degenerative diseases, Dr. Lovewell Langstroth, San Francisco, told members of the American Medical Association here

today.

Dr. Langstroth said that a study of 501 sick persons revealed that 88 per cent of them ate chiefly bread meat, potatoes, sweet desserts and other foods poor in vitamins. Many of them improved on a diet of fresh milk, fruits and vegetables, he said.

Dr. E. T. "This state of mind," Dr. Quigley said, "is what makes it so easy for the quack to market, at a huge profit, his utterly worthless nostrums.

"When the medical profession ceased seeking a cure and turned to the cause of cancer, the death rate slowed up. Primarily there seems to be four causes: constant irritation of tissue, chemical irritation and heat and infection," he said.

"Shades of the 'shin plaster' days!
Can these be real?"
This and other similar expressions might have been heard in the vicinity of any of the Atlanta banks Wednesday morning as hundreds of people made their way to the paying teller's cages in an effort to accumulate as many of Uncle Sam's new under-sized bills as nossible.

many of Uncle Sam's new under-sized bills as possible.

True to the advance notices of the great event, the paper aoney which has been reduced in size but not in value started flowing into the channels of business Wednesday, beginning a long process of substituting for the more familiar type which is expected to take nearly a year to com-

through them after which they are split lengthwise.

The lower half of the packages are then shipped to Washington and if they arrive safely, the remainder is shipped. If anything in the nature of a disaster befalls the first shipment which results in its destruction, the remaining halves are still sufficient for identification purposes. If, on the other hand, the shipment goes through without difficulty, the top halves are sent along and the whole lot destroyed in a very thorough manner.

Used For Souvenirs.

The bills are put in a giant macerating machine with a solution which reduces the mass to a pulp. The water is then drained off and the pulp sold as such. This is often used, it is said, for the purposes of making souvenirs in the shape of various ronuments, buildings and similar structures.

More Showers Probable Today Forecast Says

Still more thundershowers are seen as probabilities for Atlanta today, according to the official forecast of the weather bureau, while little change in temperature conditions is anticipated.

Bureau officials point out that showers of the type that struck in some sections of the city Wednesday are merely in accordance with the old summertime custom and do not constitute anything phenomenal.

The mercury range today will once again be approximately 72 to 87, it is anticipated.

GROUP TO DISCUSS

With the purpose of adopting a measure that would adequately regulate city primary elections in Georgia, a mass meeting will be held in auditorium No. 2 of the Chamber of Commerce building at 8 o'clock tonight, to which every citizen of the city and all members of the legislature are invited.

M. G. Hicks, acting as spokesman

for an organized group through which the movement was initiated at a meeting at the county courthouse several days ago, called the mass meeting and will preside. A committee appointed to draft the measure will submit the bill to the mass meeting tonight, at which time any alterations or amendments will be considered.

Mr. Hicks especially urges all civic workers to attend and familiarize themselves with the proposed legislation.

THE UNKISSED BRIDE By BERTA RUCK

SYNOPSIS.

Joy Harrison, living in Loodon and working for Dr. Rex Travers in Harley street, is crushed by a letter from her flance, Geoffrey Ford, a well-known novellet, asking to be released from the engagement. Preoccupied with her own trouble, she falls to notice that Dr. Travers seems troubled, too, Toward the end of the day be tells day that he has just lost a great deal of money through an unscrupulous solicitor, and he will be forced to give up his house in Harley street.

Dr. Locke, a tenant, tells Rex that he has just been offered a practice with a comfortable wills in the south of France that he recommend Ren, and he suggests in the will marry her on a business arrangement. The doctor is stunned by her suggestion, and finally asks her why she made it. She tells him that she is badily in need of another job, although her real reason is to have Geoffrey read of her engagement to another man.

The doctor broods over the change his sitered circumstances will have on his syoung nephew and ward, Percival Arthur fitznoy. Finally he decides to take Joy at her word, and they enter into an agreement to marry on a strictly business basis. Immediately after the ceremony Rex, Joy and Percival Arthur fitznoy. KING-BIVINGS WEDDING IS BRILLIANTLY SOLEMNIZED

Druid Hills Home Provides Lovely Setting For Nuptials Fashionable Atlanta society assembled at one of the loveliest of the midsummer weddings last evening when Miss Clara Belle King, daughter of Mr. and Mrs. Clyde Lanier King, plighted her troth to William for home. She was a graceful figure wearing a gown of lavender chiffon, her bouquet tied with streamers of yellow chiffon. Little Miss Jane Woodruff, small niece of the bride, carried the ring to the altar in a calla lilly, her dainty frock combining white chiffon and real lace with a delicate finish of tiny French flowers being worn in her hair. Her small sister, Frances Woodruff, was the tiny flow-

Fashionable Atlanta society assembled at one of the loveliest of the midsummer weddings last evening when Miss Clara Belle King, daughter of Mr. and Mrs. Clyde Lanier King, plighted her troth to William Troy Blvings, Jr., the ceremony taking place at 8 o'clock at the handsome home of the bride's parents in Druid Hills. Dr. Richard Orme Flynn, pastor of the North Avenue Presbyterian church, read the marriage service, assisted by Dr. J. Sprole Lyon, pastor of the First Presbyterian church, the ceremony being witnessed by a large throng of friends and relatives.

A raised altar, formed in the rear drawing room of the home, featured the elaborate floral decorations. Centering the background of rich green foliage plants was a massive eleven-branched candelabrum, two seven-branched and two five-branched candelabra, placed at intervals among the palms, rendering the scene a blaze of glory with their myriads of tall, lighted tapers. Placed between the candelabra and flanking either side of the altar were tall, graceful white floor baskets filled with stately Ascension lilies, the baskets connected by ropes formed entirely of valley lilies. The newel posts of the stairway were topped with baskets of Ascension lilies, and forming an aisle from the losse-fitting bodice at the low waistline by exquisite embroidery of orange blossom design, dong in the bodice. formed entirely of valley lilies. The newel posts of the stairway were topped with baskets of Ascension lilies, and forming an aisle from the foot of the stairs to the living room door was a series of floor baskets filled with lilies and connected by garlands of valley lilies. Graceful palms were grouped in corners and in window recesses, flower-filled floor baskets standing in relief against the green and flanking the door-

The Griffith-Dobbs harp ensemble furnished a program of nuptial music, playing "My Heart At Thy Sweet Voice" from "Samson and Delilah," preceding the ceremony. The wedding march from "Lohengrin" announced the approach of the bridal attendants, who descended the

stairway and passed through the living room to the drawing room.

Mrs. King, the bride's mother, escorted by her son, Clyde L. King, Jr., and Mrs. William Troy Bivings, mother of the groom, escorted by George Woodruff, of Birmingham, Ala., brother of the bride, preceded the wedding party and took their places on either side of the altar, Mrs. King standing with her brother, Robert E. Mrs. King was handsomely gowned in white chiffon fashionably draped and worn with a graceful spray of pale pink orchids and valley lilies caught to her left shoulder. Mrs. Bivings was an attractive figure wearing flesh-tinted chiffon, embroidered in crystals, her costume completed by a shoulder spray of lavender orchids and valley lilies. Billy and Joan Pritchard, leading the wedding party, descended the stairs carrying white satin ribbons, finished at the ends with single Madonna lilies, and outlining an aisle from the drawing room door to the altar. Little Miss Pritchard wore a dainty frock of white chiffon, and Master Pritchard wore a suit of white satin.

Ribbon-Bearers. The junior ribbon-bearers were followed by a group of six close friends of the bride, including Misses Jane Small. Littell Funkhouser, Anne Lane Newell, Anne Huffman, Ella Byron Huffman, and Mrs. Edw.n H. Bickle, of Louisville, Ky., who acted as ribbon-bearers. Their gowns fashioned like those worn by the bridesmaids and the matron of honor were developed in filmy chiffon and featured the long, bloused bodice, the deep V-neck line, the smart swathed hipline, and the full circular skirt, the hemline dipping to the floor on each side. Large organdy flowers were placed at intervals on the full skirt, a graceful spray of organdy flowers with long stems adorning the back of the right shoulder. Miss Newell, Miss Funkhouser and Miss Anne Huffman wore lavender gowns, while Miss Small, Mrs. Bickle and Miss Ella Byron Huffman wore canary yellow, their satin pumps dyed to match their costumes. They carried small round bouquets of Pernet roses, showered with lavender sweet peas, the attendants wearing yellow having their bouquets tied with lavender sweet peas, the attendants wearing yellow having their bouquets tied with lavender chiffon, and those in lavender having yellow streamers.

The bodice, fashioned off the shoulder, was finished at the neckline with a tulle bertha edged in handsome rose point lace, the same design in pearl embroidery joining the lace to the tulle and the bertha extending to the waistline in the back. The skirt, which was made floor-length, extended into a train in the back. A close-fitting cap of rose point lace, the back embroidered in seed pearls and confined on each side by tiny clusters of orange blossoms which were worn by the bride's mother at her wedding 32 years ago, held in place the filmy tulle veil which entirely covered the long court train of satin fastened to the bride's shoulders underneath the deep bertha. A band underneath the deep bertha. blossom motif featured on the wedding on their bouquets. The bridesmaids descended the stairs singly, meeting the groomsmen at the foot of the stairs. Miss Helen Bivings sister of the groom, entered the living room and walked to the altar with Bivings Marshall, Miss Constance Spalding with George Woodraff, and Mrs. Clyde L. George Woodraff, and Mrs. Clyde L.

Following the marriage service an Following the marriage service an elaborate reception was held. Receiving with Mr. and Mrs. King, the bride and groom, were the groom's narents, Dr. and Mrs. William Troy. Bivings; Mrs. W. S. Wilson, of Nashville, Tenn., and Mrs. A. P. Coles, of Albany, great-aunts of the bride; Mrs. Barrington King, of LaGrange, and Mrs. Hill Huffman, the bride's aunts; Mrs. George, Walters and Mrs. Lames Mrs. George Walters and Mrs. James Campbell.

The bride's table, placed on the in-closed porch, was handsomely appoint-ed in silver and white, and exquisite in detail of decoration. Centering the white satin cloth was a large plateau formed entirely of valley lilies, out of which rose a graceful eleven-branched silver candelabrum, the tall white tapers studded with scintillating brilliants. Placed at intervals around the centerpiece were seven smaller mounds of valley lilies, from the center of which rose silver candelabra, the candles being tied with fluffy white talle hows. The entire service was

The bride's gifts to her attendants were handsome platinum barpins, centered with diamonds, and to the little girls in the wedding she gave dainty enameled heart necklaces. The little boys were presented with watch fobs. Supper was served around the beautiful formal garden to the rear and to the side of the home. The punch bowls, presided over by Mrs. George Wight, of Miamu, Fla, and punch bowls, presided over by Mrs. George Wight, of Miami, Fls., and Miss Edythe Coleman, were embedded in mounds of yellow roses. Mrs. Albert Pritchard kept the bride's book, and a very youthful guest was little Miss Frances Poole King, niece of the bride, wearing hand-embroidered batists trimmed with real lace. During the evening Mr. Bivings and his bride left for a two weeks' motor trip. Upon their return they will join their parents, Mr. and Mrs. King, and their brother, John King, for an extensive trip to the Pacific coast.

Mrs. Bivings traveled in a becoming cobalt blue georgette crepe ensem-ble, the sleeveless dress fashioned with ble, the sleeveless dress fashioned with a deep white yoke and the skirt finely pleated. A smart touch was the novel finish on the bottom of the coat, skirt and sleeves, formed by small blue eyelets, set close together and threaded with narrow white grosgrain ribbon, the same finish used to join the white yoke to the bodice of the blue dress. A cobalt blue French felt hat completed the effective costume. Mr. and Mrs. Bivings will reside in New York city, where the groom will complete his course of study at Cor-

BY JOHN P. BOUGHAN.

Associated Press Market Editor. Chicago, July 10 .- (A) - Broadening of demand for wheat from the United States, together with extremely adverse crop conditions reported northwest, brought about moderate upturns higher prices for wheat, nowever, were more or less handicapped by uncertainty which prevailed as to whether Canadian and United States government crop estimates due after the close today would allow for all damage done up to date or only for damage as of

July 1.

Closing quotations on wheat were firm at 3-4c to 1 1-4c above yesterday's finish, corn closed 1-4c to 1@ 1 1-8c up, oats unchanged to 1-4c higher, and provisions unchanged to

higher, and provisions unchanged to 20c off.

Export takings of United States wheat today for shipment to Europe via the Gulf of Mexico were figured as totaling 1,600,000 bushels, largely No. 2 hard winter, an amount heretofore unequaled of late during a 24-hour period. Other outstanding factors tending to lift wheat prices here were indications that drought injury to crops was being made worse both north and south of the Canadian boundary and in Argentina as well. In this connection, particular notice was given to a report from a Chicago crop expert that Alberta province would yield only 60,000,000 to 80,000,000 bushels this season, compared with 147,000,000 bushels inst year.

Increased hedging sales associated

Increased hedging sales associated with an enlarged movement of newly harvested domestic wheat southwest counted at times, though, as something of a weight on the market. Cash handlers here booked 260,000 bushels of wheat to arrive, mostly from Kansas City. On the other hand, rains were reported to be hampering the harvest in parts of the southwest, and as the day drew to an end the majority of traders were anticipating a ority of traders were anticipating a exhibit by the Canadian and United States government crop re-ports, and expectance borne out by showing 20,000,000 bushels less do-mestic wheat production than the average of recent private forecasts. The Canadian official crop estimates too were greatly reduced compared

Corn and oats sympathized with wheat strength. Besides prospective export business in corn attracted attention. The government report on probable yield of corn was construed as bullish, being 21,000,000 bushels under the average of private reports. Provisions inclined downward owing to a seeback of hor values.

New-York, July 10.—The raw augar market was easier today although no business had been reported, offerings of both Cuban and duty frees were in moderate supply around 3.8, but neither refiners nor operators appeared inclined to pay this prive, however, with the only bids heard at 3.7c.

The augar fatures market was also caster, reflecting the absonce of demand for raws at the lower levels; business, however, was restricted, with the day's turnover, easien. Opening prices were I to S cents lower, influenced by selling by trade commission houses. The lower levels reflected easier London cables. Fluctuations during the day were confined to a range of a point or two. There was neither a decided selling pressure or any disposition to buy, and prices were responsive to small orders at the day. Closing prices were net I to 8 points hower with the day's turnaver to tailing 46,300 heles. Final questations included July 1,98; September 2.04; December 2.04; Tr. January 2.18; March 2.22,3; May 2.29, and July, 1930, 2.36.

In the refined sucar market all refiners were firm at the new I at questation of 5.25c. The demand for refined at 5.00c before the advance became effective proved disappointing. Sewere, buyers generally who were still covered for two or three weeks took only additional supplies to complete 26 days' requirements. Withdrawal demand, however, was good, reflecting the continued bet weather.

United States government bonds and treasury notes extended their recent gains, although turnovers were small. The demand for prime short-term securities, particularly the treasuries, by corporations seeking temporary employment for large funds received from recent financing opera-

tions has been exceptionally large and as a result the prices of these issues have mounted steadily from their low levels of about a month ago. So insistent has been the inquiry from companies that do not make a practice of putting spare cash at work in the call money market that a real market shortage of the treasury obligations is reported.

New York, July 10.—(P)—After a moderate early advance on a renewal of yesterday's buying movement, the cotton market turned easier today under realizing which appeared to be combined with some local selling on a more favorable view of weather conditions in the south and favorable features in the weekly report of the weather bureau. October sold off from 18.71 to 18.45, and closed at that figure compared with 18.59 at the close of the previous day. The general market closed steady at net declines of .6 to 17 points.

The opening was steady at an advance of 5 to 7 points, in response to relatively steady Liverpool cables and reiterated reports of increasing boll weevil damage. The more active positions sold about 7 to 12 points net higher during the first few minutes with January advancing to 18.87, but the higher prices seemed to attract a good deal of realizing Evidently there was a disposition in advance quarters to take profits in ad-

Evidently there was a disposition in some quarters to take profits in advance of the weekly report of the weather bureau and the selling of this sort become somewhat more active after its publication. At any rate prices eased further and the market seemed rather unsettled at times during the afternoon with July selling off to 18.12 or 22 points net lower, while new crop months showed net losses of 13 to 16 points, with December selling at 18.69 and March at 18.85. prices eased further and the market seemed rather unsettled at times during the afternoon with July selling off to 18.12 or 22 points net lower, while new crop months showed net losses of 13 to 16 points, with December selling at 18.69 and March at 18.85.

Closing quotations were 5 points up from the July but at the lowest levels of the day on the later deliveries. The weekly report of the weather bureau contained several references to the effect of weather conditions on the weekly but on the whole seemed to make a favorable impression on sentiment as to crop progress, so far as the development of the plant was concerned.

COTTON LOWER AT NEW ORLEANS.

New Orleans, July 107-(P)-After a steady start the cotton market worked lower today under offerings, prompted by hearish textile statistics and facoline carried active positions off approximately \$1 a bale below the early highs, with October selling from 18.52 to 18.33. The option closed at the low for a net loss of 13 points, with the general market closing steady at a net decline of 6 to 13 points. Liverpool cables were relatively steady, and the market here opened

higher. First trades showed gains of 10 points on July to advances of 4 to 5 points on later positions. The market continued steady for a time after the start in sympathy with an advance in New York. October sold at 18.52 and December 18.71, or 6

Later, however, the market turned decidedly weak under selling on fears that the textile statistics which were to be issued after the close would prove bearish. The favorable weather in the belt added to the selling, which kept prices on the downgrade for the remainder of the session.

The weekly weather and crop sum-

though it said weather during the past meek did not check the spread of boll wegvils. The lows of the day were reached in final trading, when October sold at 18.33 and December LIVINGSTON & CO. 18.51, or 19 to 20 points under the highs. Final prices were at or near the bottom.

Market Gossip

The weekly weather report was construed unfavorable but outside buying was lacking.

Failure of the market to broaden out or to routinue the advance of the past two days no doubt caused disappointed traders to liquidate. Locals, Wall Street, New Ordeans and spot houses were reported sellers in the late trading. Late weather advices were more favorable but crop complaints were numerous.

So down, whitegout the advance of years and a versually expressed opinion that purchases at this level will prove them the first portrament remote and approximately proved the first portrament remote of August S. Liverpeol futures are due tomorrow. July 9.85; October 9.80.

New York, July 10.—(Special: —The stock market is encountering more frequent spasmodle selling waves in various groups of stocks but the list as a whole is giving a good account of itself.

Guistanding stocks are United States Steel, General Electric, American Can, Bethlehem Steel, Weatinghouse, Allied Chemical: the principal copper companies. Montgomery Ward. Union Carbide and Standard Rails and Utilities.

Among the food stocks we would again call attention to our previously expressed opinion that Gold Dust is pointed to substantially higher levels.

We would also add to holdings of Fleischmann, Loge-Wiles, National Dairy Products and Borden.

Utilities are giving further evidence of having completed a temporary reaction. Standard Gra & Electric is a leader in this renewed accumulation.

10,30,000,000. Five months of the current year suggest a total of about 125,000,000,000 for 1929.

Tobacco farming in this country has andergone a great change. A big extension has occurred in the belt growing bright yellow tobacco. The increase in acreage in the Carolinas and Georgia was from 317,000 in 1914 to 1,000,000 in 1928. In 1914 Georgia was great to 1,000,000 in 1928. gia was growing less than 2,000 acres of tobacco, while last year Georgia's acreage amounted to 122,000. American farmers received more

than one-quarter of a billion dollars from sales of tobacco last year. The United States government received more than \$400,000,000 in revenues imposed on tobacco sales. Net profimposed on tobacco sales. Net profits of the ten leading manufacturing companies amounted to \$93,000,000 in 1928.

The importance of a popular-priced The importance of a popular-priced cigaret is easily disceruble in the progress of the strongest companies in past years. At present there is severe competition in the industry which in April of last year led to a cut in manufacturers' prices from \$6.40 to \$6 a thousand. This price cutting was due in part, at least, to the entrance into the field of a new cigaret with tremendous advertising behind it, but it was probably due more to the gain in popularity of a brand already well established. Despite last year's price cuts leading manufacturers reported creased profts, and with productio for the first five months of the cur-rent year 17 per cent ahead of 1928 and no future price cuts in prospect, there is every reason to look for a further increase in the year.

The reichstag has increased the erman import duty on wheat, rye, ats, butter and potatoes, and is proding a corresponding increase in th duties on flour and dairy products.

During the first five months of this year 1,344,028 tons of iron and steel were exported, 247,433 tons or 22.6 per cent more than in the corresponding period of 1928.

New York, July 10.—Rubber futures steady; July 21.70; September 2 cember 23.30. Spot smoked ribbed 211.

Washington, July 10.—(A)—Decreased yields this season in grain crops below last year's harvest were forecast today by the department of agriculture on the basis of information on July 1 conditions.

Of the major grains only rye was estimated to show an increased production although roports from production although reports from production although reports from pro-

duction, although reports from pro-ducers, included in the survey, showed that up to July 1 the weather was 2.7 per cent more favorable for crops

Estimates for leading crops, compared with the 1928 harvest, follow:
Corn 2.662.000,000 bushels, compared with 2,836,000,000 harvested ast year; wheat 834,000,000 and 902, 000,000; oats 1,247,000,000 and 1,449,000,000; barley 317,000,000 and 357,000,000. The rye forecast was for 41,-700,000 a year ago.

"In the country as a whole the condition of crops averages 3.7 per cent below the 1918-1927 average," the "On the first of July crops were

in a particularly critical condition in the northern great plains region, where drought and high temperatures prevailed and prospects were declining "The estimates for this area allow

only for damage in evidence on the first of the month. Allowing for some larst of the month. Allowing for some late crops still to be planted and for usual loss of acreage from drought, flood and other causes, the total crop acreage harvested this season seems likely to be about the same as that harvested last season."

harvested last season."

The separate wheat crop estimates were winter wheat 582,000,000, compared with 578,000,000 harvested last year; durum wheat 58,000,000, compared with 93,000,000; other spring wheat 193,000,000 and 231,000,000.

Decreased accesses were indicated. Decreased acreages were indicated in corn, oats, rye, rice and potatoes, and increased acreages were planted to wheat, barley, flaxseed, cotton, hay, sweet potatoes, tobacco, beans, peanuts and sugar beets.

Of the crops reported on, increased yields over 1928 were estimated in flaxseed, tame hay, beans, tobacco and sugar beets. Decreases were shown in hops, broomcorn, sweet potatoes, po-tatoes, pears, apples, peaches and rice. Particularly poor yields were estimated in fruit crops, pears being estimated at 19,800,000 bushels, comed more n dollars pared with 24,000,000 bushels last year; peaches 47,100,000 bushels, compared with 68,400,000, and apples 154,000,000 bushels, compared with

GRANT BEGINS INTERSECTIONAL MATCH TODAY

Atlanta Net Star To Compete on Team Representing South.

Chicago, July 10 .- (Special.) -Six teams, with not a ranking player on any one, due to the absence of the nation's leader on foreign soil, will take up the battle for the United States intersectional team title on the courts of the Chicago Town and Tennis Club Thursday afternoon.

day afternoon.

The southern team, composed of Bryan Grant, youthful Atlanta star, and Cliff Sutter, of New Orleans, ranks as one of the favorites, due to the showing made by Grant at the national clay courts tourney at Indianapolis. The team from the Missouri valley will be another strong contender, though a possibility exists that Wray Brown, the backbone of the team, will be unable to play.

The western team will be in the role of defender of the crown, which was won by George Lott and Johnny Hennessey last year. Both these stars are in Europe at present, and the task of upholding the honor of the west is in the hands of Emmett Pare, recently crowned clay courts champion.

DOUBLE DOG DARE.

Meanwhile from at least one quarter there is a rampant demand in the press for Stribling's services. They want him badly at Winston-Salem, N. C. The Twin City Sentinel carried a long yarn the other day broadcasting a typical challenge from Jack Gross, the Philadelphia southpaw.

It seems that Jack and his manager suddenly have become old residents of Winston-Salem and command as much civic loyalty as the Reynolds or any of the other tobacco magnates. Jack, through his manager, declares loudly that Young Stribling is afraid to fight him and he offers to meet the Georgia aviator without money guarantee.

Such dashing sportsmanship naturally commands respect ind requires an answer.

The Winston-Salem American Legion is quoted as saying Pa does not want Son to fight Jack because Jack is a southpaw.

All of which is a good build-up campaign according to the standards of fistiana for a match in Winston-Salem between Young Stribling and Jack Gross, the Philadelphia southpaw.

Birmingham Vet; Oldham Weakens.

Birmingham, Ala., July 10. Bob Hasty won his thirteenth game of the season Wednesday when he outpitched Red Oldham, to win 5-2. It was the Barons' only win of the series over the Crackers.

Hasty won his game by getting rid of Cullop three times with two men on each time by fanning the home run

Oldham and Hasty both started off in high, breezing through the first three innings, fanning nine men each. Lopez tried to stretch a triple into a home run in the second for the Crackers only hit in the first three innings.

TWIN SLAYING. Sturdy and Weis led off with hits in the first and second and each died in a twin slaying. Oldham fanned Pickering and Bennett in succession in

Bob Hasty stayed on the pitching

Bob Hasty stayed on the pitching road and Red Oldham slid off when both butted into trouble. It cost Oldham three runs to get back.

With one out Sheehan and Parham singled. Hasty fanned Cullop for the second time. Burrus grounded to Pickering, forcing Sheehan at third. Stewart doubled to center and with two gone Oldham hit Weis on the shoulder trying to drive him away from the plate. Smith sent Stewart across the plate with a single to right. Yaryan caught Parham playing back for him and pushed a double over first, Weis and Smith scoring.

Bob Hasty must have been given special instructions on how to pitch to Nick Cullop. He struck Cullop out for the third time in the sixth with two on. Oldham walked as a starter and went to second on Parham's sixth hit of the series.

M'CARTHY LIKES LIVELY SPHERE

Public Is Greatly in Favor of Heavy Hitting, Says Joe.

By Brian Bell.

Associated Press Sports Writer. New York, July 10 .- (A)-The so called "lively ball" of baseball has at least one staunch defender in Joe Mc-Carthy.

"The only trouble I find with the ball is that it is not lively enough." said the manager of the Chicago Cubs today. "They can't make one too lively for us."

"It is not the ball," he added, "but the restriction on pitching that is responsible for the increased hitting. If they will let the pitchers discolor the ball, rub it with emery, spit on it and do the other tricks common in the old days, the hitting will stop, lively ball or no lively ball.

"Nowadays the pitchers throw a new ball to almost every batter. If a ball seems to sail the batter calls the impire's attention to it, and he throws

PITCHING IS GOOD. "Our pitching is pretty good now and most of the time we are hitting. At that we got only five hits yesterday from Cantwell at Boston and Seibold gave us just five hits, too. I guess they were not pitching the lively ball."

The commission yesterday barred Brown and his manager, Dave Lumiansky, for not having boxed one Knute Larson at Copenhagen, al-though Lumiansky had signed a con-tract for Brown. The commission also criticized Lumiansky for having spread reports in the United States and abroad that Brown was recog-nized by the National Boxing Association as bantamweight champion;

New York, July 10.—These are hot days for the baseball races in h of the major leagues. About half the distance to the finish line mains to be covered and there appears to be no surety concerning nich teams will win their way to the next world's series.

If the Yankees ever can get within half a dozen games of the Athics, the American league race will be fairly open. The Mackmen and e Yanks have 10 games against each other still to play. Let New ork see a chance for the flag, and, even with their good pitching staff, ost of those games might be pretty tough for the Mackmen to win. Even without Cochrane and Bishop,

R pe and the Mackmen can not stand many injuries.

Ott. of the Giants, scarcely gets the tention he deserves. If the Mc-Ott, of the Giants, scarcely gets the Atention he deserves. If the McGrawmen do anything startling, this youngster will be largely responsible. Ott has been leading his league in runs scored, runs batted in and home runs. And his homers have totaled more than those clouted by Gehrig or Ruth. Ott and Terry are no bargains for any pitcher. And, with Benton again effective, the giants themselves are getting good pitching again.

The big disappointments of the seasagainst Braddock I am convinced I son are still Washington and Cincinnati. There seems to be no very strength in Traynor and the Waner boys, but the highlight from a Pirate viewpoint has been the hurling of Grimes. Here is the best pitcher that the country right now and the finost valuable to this club. Grove, of the Athletics, has about as good a record, but I believe that Grove has had a stronger team behind him.

Chicago surely has a powerful team, but the Cubs have been worrying over third base and the club has shown signs of tension. One thing which will help a lot is that Hornshy has begun to hit in his accustomped manner and, with the other hard hitters.

The big disappointments of the seasagainst Braddock I am convinced I will have enough strength and speed to retain my title.

A man gets the feel of himself when preparing for a fight in much the same manner that a golfer gets that vaunted "touch" when he is in a tight match. In Boxing with the boys up here—and I have good, strong partners—I have that touch. I'm hitting straight for the target. I feel right.

What a difference the last time I that douch. I'm hitting straight for the target. I feel right.

What a difference the last time I had added hitting strength to its undoubted pitching strength, but that was a mistake. The Reds haven't punch enough to knock a sick kitten off a chair. Nor can Washington get going. The Senators have a good ball club, aside from the fact that it doesn't appear to be able to win.

Jan Meanwhile, the Yankees are getting we'ter pitching than before and are owing their old power at the bat, ith no bad luck, the Athletics should ave walked home, but under present ircumstances they must show plenty of fighting spirit. And any weakening of the Mackmen is, of course, vastly encouraging to the Yanks. The next 30 days will be important ones in the race in this league. Pittsburgh and Chicago still look like the best bets, but New York and St. Louis assuredly are not out of the picture. Brooklyn has an outside chance to finish in the first division, but the Robins can not be seriously considered as pennant contenders. Nothing short of a baseball miracle could land them in first place.

Phyllis H. Covell, Mrs. Phoebe Watson and Betty Nuthall.

In the doubles the British team will be exceptionally strong. Mrs. Watson and Mrs. Mitchell, Wimble-don champion, probably will form one combination and Mrs. Covell and Mrs. Shepherd-Barron, runners-up at Wimbledon, another. But in singles the United States will hold the upper hand with Helen Wills and Helen Jacobs as the principal hopes. The series consists of five singles and two doubles matches.

Chicago, July 10.—(P)—Charges that boxers have been forced to give from 10 to 20 per cent of their purses in order to get places on cards are to be investigated, and promoters and matchmakers have been ordered to appear before the Illinois athletic commission next Tuesday.

It is Mr. Hannagan who handles all publicity for the motor speed-way at Indianapolis, and tells Mr. Graham McNamee at the radio which driver is in each cloud of dust as it passes the grandstand. The president of this motor speedway is, I believe, Mr. Edward Richenbacher, the reformed automobile racing driver who took to higher things, being now interested mainly in airplanes. It is contact with speedways and Rickenbachers which enables a man to drive a car 25 hours at a stretch. Chairman Paul Prehn yesterday said the commission has evidence of boxers having been forced to submit to the "shakedown" in order to get bouts. He said that "fixers" have forced them to pay a percentage of their purses or see bouts given to other men, who were willing to pay.

Prehn said long suspensions would follow if the shake-down practice is continued after a formal warning is given Tuesday.

Indiana served merely as a landing field between hops. Mr. Hannagan has practically come straight through from California, where he has recently been sojourning with Mr. Jack Dempsey, the former leather and sock purveyor. Mr. Dempsey is now on the stage, doing a turn in vaudeville and doing it so well that some persons call him an actor to his face. His present skit was written for him by Willard Mack and there is no boxing in it. This is less of a strain than his former acts, as some of the boxing partners Club To Instruct Youths in Swimming

THE RETURN OF TARZAN No. 28

Tarzan threw the sentry's body across his broad shoulders and climbed back into the trees. From there, when the village awoke to find their sentry gone, he gave voice to a long, weird moan. As the raiders looked in its direction, he suddenly shot the body far out above their heads, landing

Fear of this uncanny foe they never saw greatly increased. The panic-stricken cannibals begged their white masters to leave the terrible place. The Arabs were loath to face the jungle with their stolen loot. But when Tarzan and his warriors returned to the attack next morning, they found the raiders prepared to march away.

Tarzan foiled their attempt to burn the village. the trail. As the column passed, a single spear or poisoned arrow, well aimed, would drop an enemy. These hideous, unseen tactics wore down the now demoralized raiders. Yet still they clung to their

By Edgar Rice Burroughs

For three days the dwindling column kept up its frightful march. Each hour was marked by many slain. The fourth morning the Arabs shot two slaves to compel the others to carry on the now hated burden. And as they did so a voice, clear and strong, rang mysteriously out of the jungle.
